PROFESSIONAL PROFILE

I have over 20 years of experience in banking, mortgage advisory, real estate, and business and sales network support. I have worked with processes, budgets, documentation, reporting, and activities supporting operational decisions.

I am currently developing competencies in reporting, data analysis, and BI tools, confirmed through practical [portfolio projects](#). I combine business experience with learning tools such as Excel, Power Query, Power BI, and SQL.

I am looking for a role where I can use my experience in business, processes, and reporting, while developing towards data analysis, data preparation, and business decision support.

KEY COMPETENCIES

- Business, regional, and sales network support
- Business reporting and preparing summaries for decision-makers
- Control of budgets, settlements, invoices, and process documentation
- Business data analysis in portfolio projects
- Data preparation in Power Query / ETL
- Building dashboards and reports in Excel and Power BI
- Creating data models, KPIs, and basic DAX measures
- SQL - JOINS, CTEs, window functions, aggregation and data analysis
- SAP - purchasing, settlement, and budget processes
- Process coordination, guideline implementation, and stakeholder cooperation
